

## **Wilson Tool One Hit Hinge**

**STRONG, FUNCTIONAL  
HINGES...**

**...IN ONE HIT,  
WITH ONE TOOL**

♦ ***Reduced running costs***

Your costs can be reduced by as much as two thirds – one hit as opposed to the three hits required with a conventional hinge tool.

♦ ***Mirror finished materials***

Use the tool with plastic coated materials so the mirror finish can be preserved.

♦ ***Quick & easy programming***

Because you only need to do one hit your programming time will be greatly reduced.

♦ ***Flexible***

You now have a wider choice of pin diameters and material types than ever before.
